He made no cry or moan of pain, there was no struggle or convaision apparent, but when his body was raised it was found to be life-less—the soul had left it. Physicians were at once summoned, when it was discovered that he had eaten, something poisonous, supposed to have been the wild carrot. The proper remedies were at once applied, and we are glad to be able to say that he is in a fair way of recovery from the attack .- Allentown Demo-

The Lehigh Region.

Matters continue quiet in the Lehigh coal region, but there is no prospect of a speedy withdrawal of the troops. The members of the Ninth Regiment, who are stationed at Driving Park, are suffering from severe colds. They were without blankets for several days after their arrival and were quartered in unplastered buildings. It is remarked by the operators that the list of signatures to the guarantee submitted to the Sheriff does not contain the name of a single representative of the Eckley and Buck Mountain branches, though Eckley and Buck Mountain, they say, were the starting points for most of the late raids. At Yorktown and Buck Mountain, the firemen have resumed their places to keep the mines from flooding. Inspector General Bertolette, who visited Manch Chunk Tuesday, expressed the opinion or "jug," your are right "Oney Jokin;" that the troops could not be removed until after the resumption of work, and aware of that fact as you are; it was he also denied that any of the soldiers noble of our Borough fathers to look had been disorderly. Junveniles hereabouts have discovered a new way of ascertaining the latent energies for speed of billy-goats. An old tin-pall, fastened by a cord to the hind leg of any of these obstreperous quadrupeds, seems to have a magical effect upon them. The one seen by us, thus ornaniented, on Sunday evening iast, would easily have beaten an express-train in a five mile heat. Who would have surmised such speed to exist in the pesky critter! Why he went like a streak of greased lightning! When last seen, in the dusk of evening, he was making fearful strides for Lehighton or some other place below-along the river we mean, of course. A CLOSE DEALER.-A certain country merchant to whom had been confided 51 of the Marion Hose Company's tickets, for sale on commission, on rendering his account the other day, returned 50 tickets unsold, but very carefully retained his commission-fee of six cents. There is some hope that this man will yet get rich.

OPEN AIR EVENING CONCERT .- We learn that the Hibernian Cornet Band intend hereafter, weather permitting, to treat our citizens to an occasional open air concert. Hope it may be sol This band, under the efficient feaderthip of Pref. Moran, is improving wonderfully.

FIRE-MATTERS are, just now, the all absorbing topic of conversation among our big boys. Infantites are talking about the projected "Spelling Bee."

THERE'S PLENTY OF FUN AHEAD This evening the spelling mania will reach its culminating point in a grand "bee" at the Court House, Admission, with privilege of being stung 25cts. Monday Court will convene, when gentlemen of leisure may enjoy themselves by basking in the rays of justice. Tuesday we may look for mud, supplemented by a firemen's parade, and a hop at Rhoad's Hall in the evening. while Thursday will be doomsday to the many who must necessarily miss the capital prive in the Marion Hose Company's gift enterprise.

Parryville Items.

The first canal boat of the season passed up on the morning of the 9th inst. Quite a small boy stepped in Mr. Peters' store the other day, walked up to the counter, saying: "Joe I want a half dozen eggs, and half dozen more." Joe gave him one dozen eggs and he went away satisfied.

The snow has again made bad walkng for us. The young ladies don't like it.

Frank Conner, a young man from Parryville, who is now working at Weatherly, was one of those that were summoned by the Sheriff to help him in protecting life and property in the coal regions. Frank was with us on Sunday, he says he has not been called to the front yet. We expected to hear of him scalping some of those Mollie Maguires before this.

The Carbon Iron Co. suspended more men last Saturday—times are very dull here.

Old prob from Parryville says we are to have one more snow this Spring-I am sorry; but if we must have it, I wish he would hurry it along.

Mrs. Frank Norton expects to leave us next week for the West, where she intends making her home. We wish her a pleasant and safe journey.

The members of the Reading room are in a very good humor about some thing, for when two of them meet there is a great talking and laughing. What does it mean, boys? ONEY JOKIN. Parryville, April 14th.

Serious" and "Oney Jokin."

Editor Carbon Advocate DEAR SIR,-Allow me to intrude on your good nature once more, in order to reply to your valuable correspondent "Oney Jokin," who, by the way, should chauge his "non de plume" to Oney Gassin, which I think would bring matters closer to a point. He seems either to misconstrue or misunderstand my words altogether, and really thinks "he is in for it now." In for what? (The lock-up or "jug?") It is not finished-can't you wait? and tells me to. "Cheese it" and "draw it mild," Come now, stop your slang, it won't do; the readers of the ADVOCATE are too intelligent to look upon it with favor, further your correspondent asks the question, "What was the first question council cussed and discussed? nothing more or less than the aforesaid lock-up nobody disputes that, we are as well of coal sufficient to supply the New abled to complete the work they so no-

the "lock-up or jug," and no doubt the rapid growth of our borough will soon demand additional public buildings, for a lunatic asytum. I would suggest the second story of our new lock up or jug" would answer for this purpose, as we have but one crazy man here at present, at least such in the public opinion, unless he is "Oney Jokin." SERIOUS.

Yours, Parryville, April 14.

The Coal Trade.

There has been no change in the gen eral features of the coal trade during the past week, says the Philadelphia Inquirer of Monday last. Mining operations continue suspended through out the Schuylkill and Lehigh regions, with no visible prospect of either the men or the company's yielding. The present condition of affairs in the Schuylkill and Lehigh regions affords a rich harvest to the companies in the northern regions, If the strike in the Schuylkill and Lehigh regions continues a week or two longer Philadelphia will have to resort to New York bay for supplies. The "war and rumors of war" in the coat regions are denied almost as fast as they are promulgated. As we said last week, the most are mere sensational stories. That the men are idle is enough to account for their assembling together in squads. The only thing about it that is astonishing under the circumstances is that the disorders have not been greater and the outrages more serious. In Schuvlkill county the quiet has been remarkable.

The orderly and respectable citizens of Hazleton have held a meeting to protest against the presence of troops in the peaceable community. They say they are neither "bandittl nor outlaws." They say that "there was no disturbance and no apprehension that any would occur. That the reports telegraphed to Philadelphia and Harrisburg were gross exaggerations." The meeting appointed a committee to visit Harrisburg and request a withdrawal of the troops, as their presence was a menace calculated to do more barm than good. The committee visited Harrisburg and had a lenghty conference with the Governor, who has, from the beginning of the trouble, acted with great discretion and good judgment. correspondence was opened with the sheriff of Luzerne county, and means adopted which it is thought will cause the withdrawal of the troops. The Committee, for themselves and those they represent, pledge the mselves to a preservation of quiet and order.
